WHAT'S NEW AT FPFCU!

Financial Partners prides ourselves in finding and providing services that meet the needs and wants of our members. In January 2018, we will add another valuable benefit to our list. We now offer **reloadable prepaid cards** for both travel and everyday use.

These cards are similar to our current gift cards, but offer greater convenience and the ability to reload the balance. Here's why we are excited:

- *Pay with protection- Spend only what you load, never linked to your financial accounts, replaceable if lost or stolen.
- *Larger load balance maximums and the ability to travel outside the US
- *Withdraw cash at ATM's
- *Reload with direct deposit, mobile check load, online, or at the credit union

Visit us for more information about this new service.

WHAT ARE ATM SKIMMERS?

ATM skimmers are fraud devices criminals use to try to steal debit and credit card information from those using the ATM. Financial Partners Financial Credit Union is committed to providing the safest and most secure banking services for our members, but as fraud devices become more and more advanced, there are a few steps cardholders can take to identify if any ATM or card reader has been compromised. 1. Check for white glue-like residue near the black or gray card reader slot. This can indicate a criminal has attempted to insert a skimmer into the card reader slot. 2. Check the card reader to see if it feels loose by moving it back and forth. If it appears the reader is not secured to the machine, it may be a skimmer inserted over the top of the reader. 3. If you have a tough time inserting, moving, or swiping your card, there may be an internal skimmer inserted into the card reader. 4. An added bar anywhere above the PIN pad can indicate a camera is hidden to capture PIN numbers. The surface of the ATM should be flat above the PIN pad. It will likely be the same color as the ATM and may even have official logos for the financial institution or ATM servicing company. 5. You can also practice extra security by covering your card number with one hand while inserting the card as well as covering the PIN pad when entering your PIN. If you suspect fraud, contact the ATM owner immediately.
